Key criteria of the Federal Funding Programme for COVID-19 Medicines (approved by the Federal Council on 19 May 2021):

- Your project must make a contribution to the secure and rapid provision of COVID-19 medicines for Switzerland and it must be highly likely that the medicine will be available to the Swiss population by the end of 2022.
- Your project should show a high level of potential for clinical innovation.
- Your project should comply with the principles of subsidiarity and necessity (government support must be necessary).
- Your project's development plan must be robust and of high scientific quality.
- You as an applicant should demonstrate relevant expertise in pharmaceutical development projects and present a convincing business plan.
- The federal government must receive pre-defined considerations in return (in particular a purchase option/right of first refusal).

General requirements for funding (besides key criteria):

- Your project is intended to develop a «medicinal product» in accordance with article 4 paragraph 1 letter a of the Federal Act on Medicinal Products and Medical Devices (Therapeutic Products Act: TPA; SR 812.21).
- Your project is not for vaccines against COVID-19.
- Your project is not for medicines that are already approved in Switzerland for the use against COVID-19 and for the indication, dosage form and dosage to be investigated.

3. Do you provide the requested documents to demonstrate scientifically the mechanism of action of the active substance for the prophylaxis or treatment of COVID-19?

Please note that you are required to submit at least one of the following three documents:
