# INNOSUISSE FUNDING OPPORTUNITIES

## ENTERPRISE EUROPE NETWORK (EEN)

### Are you looking for project partners from other countries?

The EEN database allows you to present your innovative solution to international markets and to look for partners in over 1,200 profiles. The e-alerts provide updates on new innovation opportunities and suitable cooperation ventures. Matchmaking events enable contacts to be forged beyond Switzerland. Contact us for advice on international support programmes and about legal and regulatory conditions abroad.

► For further information and advice visit:  
[www.innosuisse.ch/een](http://www.innosuisse.ch/een)

## EUREKA INITIATIVE

### Projects based on international cooperation

As a research-led SME, are you looking to develop your product or service in collaboration with partner companies or research teams on the international stage? EUREKA is an international network of support agencies from over 40 countries. Help from the Eurostars initiative will allow you to efficiently develop and implement research projects with strong market relevance. You'll also gain easy access to the European market.

## ECSEL PROGRAMME

# European cooperation in the field of electronics

As part of the ECSEL programme, Innosuisse supports projects of Swiss companies and universities in the field of nano and microelectronics and embedded computer systems. It boosts the competitiveness of companies in cooperation with universities in market-oriented research projects. The annual calls for project tenders are aimed at SMEs, large companies, universities and research institutions.

## ACTIVE AND ASSISTED LIVING (AAL) PROGRAMME

# Actively enhancing quality of life for elderly people

The European funding programme AAL supports cross-border projects that develop innovative, marketable solutions aimed at improving quality of life in old age through new technologies. Innosuisse supports the participation of companies, universities and end-user organisations representing the interests of elderly people in the AAL programme.

#### ERA-NET

## Thematically focused international cooperation

Do you need an international partnership with a research institution or an industry partner to implement your innovation? Innosuisse supports the participation of companies and universities in the ERA-Net in specific subject areas and provides you with access to the calls to tender.

#### BILATERAL COOPERATION

## Access to new markets thanks to international cooperation

Innosuisse cooperates with support agencies in countries with a strong track record of innovation and growth (e.g. Sweden, Canada, South Korea). We help innovative Swiss companies gain access to new markets.
