In order to request access to Innosuisse Analytics, proceed with a click on «request access»

Access not possible

- i** You do not have the access rights for this application. This can be due to the following reasons:
1. This is the first time you want to access this application. Please click the "Request access" button and follow the directions.
 2. If you already requested access to this application, the following steps might help:
 - wait until you receive the e-mail that confirms you have access.
 - click the "New login" button and select a different login method because the previously selected login method was not accepted by the application.

Mobile TAN (mTAN)

You will receive a text message containing an mTAN code. If you enter this code correctly, you will obtain a higher level of security.

Certain applications also permit access with a lower level of security, in which case you can skip this step by clicking on "Continue without entering an mTAN".

You can request a new code no more than three times if you do not receive the code (can take up to a minute) or if you can no longer access it.

If you enter the code incorrectly too many times, the system will automatically send you a new one. In case you do not receive a new code, the following "Tricks & Tipps" may help you.

- On prepaid mobile phones there must be enough credit.
- Cancel the old SMS-codes and try to access again.
- Switch off and restart the mobile phone and try to access again.
- Contact your Service Desk.

A (new) mTAN has been sent via SMS.
